## **LARGER THAN LIFE COLOR**

It's not just  
black & white  
anymore...

**Signs & Banners**  **Vehicle Wraps**  **Tradeshow Displays**  **Floor Graphics**  
**P.O.P. Displays**  **Full-color Decals**  **Murals**  **Fine Art Reproduction**

## **File Preparation**

**Accepted File Types:** .ai, .psd, .eps, .tiff, .pdf, .jpg

**Suggested output:** 150dpi @ output size for close-up viewing, 50-100dpi @ output size for >10ft. viewing distance.

**Accepted media:** CD, DVD, Zip disk

-  Provide Windows compatible, native files.
-  Convert all text to outlines or include all PC font sets in a zipped folder.
-  Embed raster images or provide a folder of linked images.
-  Build files as close to actual size as possible, or work in 1/2 or 1/4 scale of output size.
-  It is not necessary to build files with extended bleed or crop marks.
-  For best results, submit vector art in CMYK format and raster art in RGB.
-  If file contains both, submit in RGB.
-  Color matching is done at output. Please specify a solid coated PMS# in your file or provide a sample to match.
